

Teen alcohol use kills 6,000 people nationwide, each year.

If you had the chance to stop some of these deaths, wouldn't you?

Fresh & Easy: Do Your Part.

Today's teenagers are using self-checkout registers in grocery stores to obtain alcohol. Grocery stores were given an opportunity to help prevent underage drinking and alcohol theft with a new law ending the sale of alcohol through self-checkout registers in California.

But instead of doing its part to stop underage drinking, Fresh & Easy's lobby group is suing the State of California to prevent enforcement of this law.

Meanwhile, **Fresh & Easy has been cited multiple times for selling alcohol to minors** since the California law was passed.

We all need to do our part to keep teens safe.

Tell Fresh & Easy to obey the law.

I/our organization call(s) on Fresh & Easy to do their part to stop underage drinking by complying with the California state law that prohibits selling alcohol through self-checkout machines.
